

How to Update Your SigmaPlot License Using Product Key <u>or</u> a Site License File (*.v2c):

You can update your SigmaPlot License using a product key or a site license file (*.v2c).

• Using a Product Key (online license installation)

If you have a **Product Key**, you must be connected to the Internet to install the license.

1. After installing, right-click on the SigmaPlot icon on your desktop and select Run as administrator

SigmaPlot	
1056	Open
	Open file location
	Run as administrator

You may need to enter an administrator username and password to run. If there is no license available, then the **SPW_15_LicenseUtility** dialog box appears:

Click **OK**. And go to step 3.

If a trial or any other license still available then SigmaPlot would launch without the above dialog.

For network licenses, please contact your Systems Administrator.

2. After launching SigmaPlot, click the Help top tool bar menu then press License Status ribbon

🔊 🖩 n n 🖻 O 🖦			SigmaPlot - N	otebook1	
Home Worksheet Cr	eate Graph Graph Page	Analysis Report	Tools Macros 🗲 H	elp

Notebook Manager 📮 🗙 👌	Data 1 x				
Notebook . Mail Open Notebooks Notebook1 Section 1 Data 1	1 2 1 2 3 4	3	4 5	6 7	8

The SigmaPlot 15 License Utility dialog box appears. In that case, either you have a product key or '*.v2c' license file.

3. Select the 'License Activation' tab under New License, group select Product Key radio button

Sigmaplot 15.0 Licer	nse Utility						×

Product Key							
License File Path						Browse	
	Apply License						
	Apply License	-					
						C	lose

4. Enter the alpha-numeric product key into the field and click Apply License

At this point license utility will attempt to connect internally (one time connection) to our following license server(s) to install the license:

grafiti.sentinelcloud.com

PS: If required, please allow/white-list it in your security/firewall to establish one time communication to our license server

Once communication to our license server is established and license is installed. the **SigmaPlot 15 License Utility** dialog box appears to inform you that the license was updated successfully.

• Installation Instructions For a *.v2c License File

Follow these instructions if you have received a (*.v2c) license file for a site or standalone installation:

- 1. In SigmaPlot 15 License Utility dialog box, click Browse
- 2. Press **Browse** button and then select the *.v2c license file which SigmaPlot sales team may have provided you, and click **Open**
- 3. Click **Apply License**
- 4. Click OK

Product K Product Key	Path		12H File			Brow	se

You can repeat these steps to see the status of perpetual or time limited licenses.

Tip: You can run the **SigmaPlot 15 License Utility** by double-clicking **SPW_15_LicenseUtility.exe** from the SigmaPlot application directory (by default C:\Program Files (x86)\SigmaPlot\Spw15).
